GESCHICHTE VON IGGY UND DEN STOOGES

Pop The Mighty

IGGY has a demo tape made. he is going into the studio to record an album within a month he has no label yet. he plans on playing the tape for other rock records in a few weeks. He wants to have the album finished in the end of the new year or just after. some songs: I GOT A JOE/JAMES WILLIAMSON: more street, toward the law, i got robbing, hell we'll live, kill city, johanna no sense of crime, revolution price. the band consists of: james williamson/lead guitar, bruce clark/drum, steve tranio/bass, scott thurston/piano, IGGY. when these boys would find a label, we will turn elton john into a pinball - and we will play the pinball record. meanwhile we all are waiting impatiently for the first live-in of the stooges, recorded in 1970 at the michigan theatre (detroit), including the 'pinball'. it will be recorded in stereo.
