1992. sound, No Pigeonholes. Thanks to Charles Laurel, Jack Jordan, Eric Muhs, Jan Bruun, CR Goffill, and your host Bobby, for radio specials in

Tapes are available for each and every show, of course, including a two-tape experimental mix featuring over 109 artists. Another 60 minute cassette features my old man doing a special on soviet underground sounds with bands like: Sacher Beloi Smertnu, Tovarisch, Kazma Kazma and Yanka Diagleva. Infact, there are over 320 1 hour tapes available of the No Pigeonholes program. Want a sample? You can send a blank C60 and two dollars for postage and handling because my dad is desperate for coffee money.

PS. I found out secretly my dad has been collaborating with Charles Laurel, Hermanos Guzanos. I've even heard him late at night working on solo material. And Shhh, don't tell anybody, Don Campau's tribute to Tim Buckley "Goodbye and Hello" is in the works. Also, there may soon be an all instrumental tape available on the audio file label from New York, but you didn't hear it from me. Not plain rumor, my dad had been sick and I still don't know if it was from a nerve infection or from that horrible Schlager music he picked up in Germany. He is feeling better now, but then again I haven't heard any Mike Kreugger lps either.
